

# I need tools that just work.

*Windows 7 and Microsoft Office 2007 for small and midsize organizations*

## Upgrade the Desktop

## OFFER OVERVIEW

### Windows® 7 is here!

Microsoft listened to the challenges that small and midsize organizations face every day, and then built the Windows 7 operating system to help address them. And it's here now, ready to be put to work for your organization.

Together with Microsoft® Office 2007, Windows 7 can deliver a productivity jolt that your employees will notice the minute they sit down at their PCs.

And right now, you can save money on both of these Microsoft products through special offers that will add even greater value to your software investment. So take your organization to the next level.

Contact us today for more information about Windows 7 and Microsoft Office 2007.

## Products

### Windows 7 Professional

- Offers core business features (networking, security, mobility, and IT management) that are essential elements needed to keep your PCs running.
- Includes all of the features in Home Premium, including Windows Media Center.
- Small and mid-sized organizations do not have to make a trade-off between home and business features.
- Natively compatible with many Windows XP and Windows Vista\* applications, devices and online services.
- Enables you to run many Windows XP productivity applications, devices and online services (not natively compatible with Windows 7) directly from your Windows 7 desktop.

### The Right Windows 7 for You

	Home Premium	Professional	Enterprise <sup>®</sup> /Ultimate
Makes the things you do every day easier with improved desktop navigation.	✓	✓	✓
Faster and easier to launch programs and find the documents you use most often.	✓	✓	✓
Make your Web experience faster, easier, and safer than ever with the Internet Explorer <sup>®</sup> 8 Internet browser.	✓	✓	✓
Easy to create a home network and connect your PCs to a printer with HomeGroup.	✓	✓	✓
Watch, pause, rewind, and record TV on your PC. <sup>1</sup>	✓	✓	✓
Run many older Windows XP productivity applications in Windows XP Mode. <sup>2</sup>		✓	✓
Connect to company networks easily and more securely with Domain Join.		✓	✓
Recover your data easily with automatic backup to your home or business network.		✓	✓
Help protect your data on your PC and portable storage devices against loss or theft with BitLocker <sup>™</sup> drive encryption.			✓
Work in the language of your choice or switch between any of 35 languages.			✓

\* Windows 7 Enterprise is available only through Microsoft Software Assurance.

<sup>1</sup> Additional hardware may be required. Not available in all countries.

<sup>2</sup> Windows XP Mode requires either OEM pre-installation or post-purchase installation of Windows XP Mode (which runs on Windows 7 Professional or Ultimate) and a virtualization technology such as Windows Virtual PC. Both Windows XP Mode and Windows Virtual PC can be downloaded from [www.windows.com/business/downloads](http://www.windows.com/business/downloads). For more information on system requirements, go to [www.microsoft.com/virtual-pc](http://www.microsoft.com/virtual-pc).

### Microsoft Office Small Business 2007

Microsoft Office Small Business 2007 is a powerful and easy-to-use suite of productivity and contact management software. Easily manage your prospect and customer/constituent information in one place. Quickly create dynamic documents, spreadsheets, and presentations. Develop professional-looking marketing materials for print, e-mail, and the Web, and produce effective marketing campaigns in-house. You can manage your calendar, tasks, and e-mail more efficiently, and filter out unwanted e-mail messages to help keep your computer safe and secure. And you will spend less time learning new features by using improved menus that present the right tools automatically.

Refer to the following chart for an at-a-glance view of the distinct benefits of the different Microsoft Office 2007 suites:

	Office Small Business Edition 2007	Office Professional Plus 2007
Microsoft Office Word 2007	✓	✓
Microsoft Office Excel <sup>®</sup> 2007	✓	✓
Microsoft Office PowerPoint 2007	✓	✓
Microsoft Office Outlook <sup>®</sup> 2007	✓	✓
Microsoft Office OneNote 2007		✓
Microsoft Office Publisher 2007	✓	
Microsoft Office Outlook 2007 with Business Contact Manager	✓	
Microsoft Office Access <sup>®</sup> 2007		✓
Office InfoPath <sup>®</sup> 2007		✓
Microsoft Office Communicator 2007		✓
